Trauma and Crime Scene Technician TCST course is designed to provide basic education, guidance, and understanding of the unique situations encountered when performing trauma and crime scene cleanup, regardless of surface, item, or location. The course will discuss the various procedures and precautions that should be taken when performing work at a trauma/crime scene and is based on the ANSI/IICRC S540 Standard for Trauma and Crime Scene Cleanup: 2017

Topics Covered

- Regulations and Guidance Documents
- Proper Equipment and Supplies
- Cleaning and Decontamination.
- Completing the work: Waste disposal, clearance testing, rebuilding and documentation
- Special Points of Instruction
- Cleanup of a Suicide Trauma Scene
- Safety and Training
- Potential liability for the health and well-being of all those involved
- Marketing Trauma Clean-Up Services

(2-day course; 14 hours, not including exam time, lunch and breaks)

Discounted room rates are on our website if you need hotel accommodations.

*There is a \$150.00 cancellation fee per student, and cancellations less than 10 days prior to class are non-refundable.

Disclaimer: Badger State University is not an accredited educational institution where you can earn credits towards a college degree. Badger State Restoration is doing business as Badger State University for students to become IICRC certified.
